

FIRE STATION

Cicero, Hamilton County, IN

Revised December 29, 1999

Site Location and Description

This site is located at 40 East Jackson Street.

Zip Code: 46034

Site Uses and Past Activities

Since the 1940s this site has been a fire station. Before that, it was used as a service station.

Contaminants and Impacts

The reports generated from the grant-funded assessment activities are currently being reviewed by IDEM. Therefore, the type and extent of contamination, if any exists, is currently unknown.

Lead Agency

IDEM in conjunction with the Indiana Development Finance Authority.

Community Concerns

The existence of an underground storage tank and potential environmental liability has prevented the sale of the fire station. If sold, proceeds would be used to build a new fire station. In addition, redevelopment of the old fire station would increase the commercial tax base of the town.

Actions Taken

The Town of Cicero was awarded an Indiana Brownfields Site Assessment Grant by the Indiana Development Finance Authority in September 1999. The awarded funding will help address environmental conditions at the property and potential liabilities. Once the environmental issues are identified and resolved, reuse of these sites should contribute to the overall well being of the Town of Cicero.

Current Status

The State has received and is currently reviewing the assessment reports generated from the site assessment activities.

Future Actions

IDEM staff will review the assessment documents submitted to the State to ensure environmental objectives are met and discuss future steps as necessary to facilitate the Town of Cicero's redevelopment efforts.

Cost Estimates

Amount of grant awarded: \$4,050.
